

ISU EUROPEAN FIGURE SKATING CHAMPIONSHIPS® 2010
January 19 - 24, 2010 - Tallinn / Estonia

MEDIA GUIDE

General Information

Official ISU Sponsors

MEDIA GUIDE TO PROGRAM CONTENT

ISU Figure Skating Championships consist of four events – **Men's Single Skating, Ladies' Single Skating, Pairs Skating and Ice Dance.**

In Single and Pair skating all entered participants skate the Short Program. At the European Figure Skating Championships the best placed 20 Men and Ladies and 16 Pairs qualify for the final Free Skating.

The Ice Dance competition starts with the Compulsory Dance, which all entered couples have to skate, the best 30 placed couples will continue the event with the Original Dance and at the European Figure Skating Championships the best 16 placed couples qualify for the final Free Dance

GENERAL RULES

ISU Championships are held in accordance with the International Skating Union (ISU) Regulations. The ISU Judging System used at the Figure Skating events is the one adopted by the 2004 ISU Congress. It is constructed as follows:

1. COMPETITIONS OFFICIALS

Technical Panel

The Technical Panel is composed of the Technical Controller, the Technical Specialist and the Assistant Technical Specialist, each one from different ISU Members (countries). A Data Operator assists them for recording purposes. An instantaneous slow-motion video replay system operated by a Replay Operator supports the Technical Panel in the identification of the performed elements.

- The Technical Specialist, assisted by the Assistant Technical Specialist, identifies and calls the performed elements and the specific Levels of Difficulty of certain performed elements (e.g. Spins, Footwork,). He/She identifies illegal or additional elements, identifies falls and adds, if applicable, innovative elements.
- The Technical Controller authorizes or corrects all calls, supervises the Data Operator and can propose corrections, if necessary.

In case of disagreement, the majority among the three Officials prevail.

Judges

Under the ISU Judging System the Judges focus entirely on evaluating the quality of each element performed (technical aspect) and the quality of the performance.

Their scores will be based on specific quality criteria for each element and will provide a comprehensive assessment of each skater's skills and performance, without comparing each skater in relation to all others. The Judge enters the scores through a touch screen unit. At ISU Events Judges may review in real time certain sequences of the skaters performances by means of an instantaneous Video Replay System.

There will be a panel of 9 Judges, of whom **7** are drawn at random. The scores of these seven Judges will form the result. Out of these seven scores, the highest and lowest score of each element or performance are ignored and the average will be taken from the remainder, generating the trimmed mean (average score).

2. TECHNICAL SCORE

The score for the element is composed of a "Base Value" of each element (Technical Panel) and the so-called "Grade of Execution - GOE" (Judges).

Official ISU Sponsors

A group of experts, including experienced skaters and coaches, have worked out a summary list of each element's Base Value as well as its "Level of Difficulty" in case of spins, steps, lifts, etc. The level of points of the Base Value depends on the difficulty of the element.

Some elements such as spins and footwork sequences are further broken down depending on their "Level of Difficulty". These element Base Values and Levels of Difficulty ensure that skaters receive the appropriate and consistent credit for every element performed. The Base Value of all recognized elements are reviewed and published annually by the ISU in a Communication.

The name of the identified element will be listed instantaneously on the Judge's screen. The Judge then simply grades the quality of the element on a scale of +3, +2, +1, 0, -1, -2, -3. With this scale and the resulting "quality judgement", the judge can either increase or decrease the base value of each performed element. The total of all the elements scores gives the Technical Score.

3. PRESENTATION SCORE

In addition to the Technical Score, the Judges will award points on a scale from 0.25 to 10.00 with increments of 0.25 for the Presentation Score to grade the overall presentation of the performance.

The Presentation Score is for **Single and Pair Skating** (Short Program and Free Skating):

- **Skating Skills**, which is the overall quality of the skating ability (e.g. balance, flow, multi directional skating, power)
- **Transitions, Linking Footwork and Movement**; which is the variety and difficulty how the individual elements are linked together. Unison in Pair Skating and Ice Dance as well as the balance of workload of both partners.
- **Performance/Execution**; is the physical and emotional involvement of the skater/couple as they translate the intent of the music and choreography (e.g. carriage, style, personality, variety, contrasts, projection)
- **Choreography/Composition**, which is the arrangement of all movements according to the principles of proportion, space and music (e.g. idea, concept, unity, pattern, phrasing, originality, design)
- **Interpretation**, which is the translation of the music to movement on ice (e.g. timing, expression of the music, use of nuances, relationship between partners, character of music)

In Ice Dance for the Compulsory Dances:

- **Skating Skills**; as in Single and Pair Skating but including also ice coverage;
- **Performance** ; as in Single and Pair Skating but including also the balanced of workload of the partners, unison and management of the distance between the partners;
- **Interpretation**; which includes effortless moves in time with the music
- **Timing**

For Original Dance and Free Dance:

- **Skating Skill**; (see the afore mentioned explanation)
- **Transitions/Linking Footwork and Movements**; which includes also the quality, the balance of workload and variety of holds;
- **Performance/Execution**; which includes also the relationship between the partners, the unison and the connection to the audience;
- **Composition/Choreography**; which includes also the shared responsibility and the aesthetic pursuit of the composition;
- **Interpretation/Timing**, which includes also the appropriateness of the music and the effortless in time with the music.

Official ISU Sponsors

4. FINAL SCORE

The final score is obtained from the Technical Score plus the Presentation Score, after having subtracted any deduction (for example 1.0 for a fall of one person).

Then, the Short Program and the Free Skating scores together form the final score.

In Ice Dance the scores of the Compulsory Dance, Original Dance and Free Dance are added.

The participant with the highest total score wins.

5. AVAILABILITY OF DATA AND STATISTICS

At the end of each segment, a list will be published which includes all relevant scoring data for skaters.

Under the ISU Judging System there is far more data available to analyse than before. This data can help the National Federations, athletes and coaches to improve future performances.

The media, skating fans and general public can find statistics and detailed data on the ISU website: www.isu.org

6. OFFICIALS ACCOUNTABILITY

The skaters performances are video recorded and can be reviewed on DVD at any time.

A computer checks and identifies possible anomalies of the Technical Panel or the Judges. If anomalies are identified action is taken. Officials who make repeated errors are subject to sanctions.

7. PERSONAL BESTS / WORLD STANDINGS

The ISU maintains on-going statistics regarding individual records. This includes information on personal bests, highest scores, seasonal bests etc. The most important individual results over the period of the last two years are ranked in the World Standings. The "Seasons Best" is displayed for each skater/couple on the scoreboard in the arena.

8. STARTING ORDER

The draw for the starting order of the Single and Pair Skating Short Program and Compulsory Dance is determined by the World Standings in the following way. The Skaters are divided into two equal parts with the Competitors ranked highest in the World Standings skating later in the day in the second half of the competition. The Competitors ranked lower in the World Standings (or with no ranking) skate in the first part of the competition, earlier in the day. The order within each part is determined by draw. The number of Skating Groups in each part and the number of Competitors in each Group is in accordance with Rules 548 and 635. Competitors with the highest ranking skate in the last two Groups, the order is again determined by draw.

In Single and Pair Skating the starting order of the Free Skating is determined from the result of the Short Program with the best placed skaters of the Short Program skating in the last group and the least well placed competitors skating in the first group. The procedure is outlined in Rule 548. At the European Figure Skating Championships the group with the starting order 1-5 in Single Skating and 1-4 skaters in Pair Skating skate first followed by the remaining groups skating in the main session.

In Ice Dance the starting order of the Original Dance and Free Dance is governed by Rule 635. The skating order of the Original Dance is determined from the result of the Compulsory Dance and the skating order of the Free Dance by the result of the Original Dance. The best placed skaters of the previous segment skate in the last group and the least well placed skaters skate in the first group. At the European Figure Skating Championships the group with the starting order 1-4 skate first followed by the remaining groups skating in the main session. See also ISU Communication 1562 for more information.

Official ISU Sponsors

ISU EUROPEAN FIGURE SKATING CHAMPIONSHIPS 2010 - LADIES, MEN AND PAIRS

SHORT PROGRAM

The Short Program for Singles and Pairs consists of eight Required Elements as listed below. The duration of the Short Program must not exceed two minutes and fifty seconds but can be less, provided that all the required elements have been executed.

LADIES

- Double Axel Paulsen
- One double or triple Flip jump immediately preceded by connecting steps and/or other comparable free skating movements
- One jump combination consisting of two double jumps or one double jump and one triple two triple jump or two triple jumps
- Flying sit spin
- Layback or sideways leaning spin
- Spin combination with all three basic positions (sit, camel, upright or any variation thereof) and with only one change of foot
- Spiral sequence
- Step sequence (straight line, circular or serpentine)

MEN

- Double or triple Axel Paulsen
- One double or triple Flip jump immediately preceded by connecting steps and/or other comparable free skating movements
- One jump combination consisting of a double jump and a triple jump or two triple jumps
- Flying sit spin
- Camel spin or sit spin with only one change of foot
- Spin combination with all the three basic positions (sit, camel, upright or any variation thereof) and with only one change of foot
- Two step sequences of a different nature (straight line, circular or serpentine)

PAIRS

- Any hand to hand lift take-off (Group 4)
- One twist lift (double or triple)
- One throw jump (double or triple)
- One solo jump (double or triple)
- Solo spin combination with only one change of foot and at least one change of position
- Pair spin combination with only one change of foot and at least one change of position
- Death spiral (backward outside)
- Step sequence (straight line, circular or serpentine)

Official ISU Sponsors

A company of Allianz

FREE SKATING

The duration of the Free Program is four minutes for Ladies and four and a half minutes for Men and Pairs. The competitors are allowed to finish their programs within ten seconds (plus or minus) of the required time.

LADIES

A well-balanced senior program must contain:

- Maximum of 7 jump elements (one of which must be an Axel type jump);
- Maximum of 3 spins, one of which must be a spin combination, one a flying spin and one a spin with only one position;
- Maximum of 1 step sequences
- Maximum of 1 spiral sequence

MEN

A well-balanced senior program must contain:

- Maximum of 8 jump elements (one of which must be an Axel type jump);
- Maximum of 3 spins, one of which must be a spin-combination, one a flying spin and one a spin with only one position;
- Maximum of 2 step sequences of a different nature.

PAIRS

A well-balanced senior program must contain:

- Maximum of 3 lifts, one of which must be from group 3 or group 4, with full extension of the lifting arm/s;
- Maximum of 2 twist lifts (there can be not more than 4 lifts and twist lifts in total and if there are 2 twist lifts, these must be with different take-offs);
- Maximum of 2 different throw jumps;
- Maximum of 1 solo jump;
- Maximum of 1 jump combination or sequence;
- Maximum of 1 solo spin combination;
- Maximum of 1 pair spin combination;
- Maximum of 1 death spiral;
- Maximum of 1 sequence of spirals;

Official ISU Sponsors

ISU EUROPEAN FIGURE SKATING CHAMPIONSHIPS 2010 - ICE DANCE

The Ice Dance competitions consist of the Compulsory Dances (one dance), the Original Dance and the Free Dance.

COMPULSORY DANCES

In accordance with Rule 639 the Compulsory Dance drawn to be skated at the ISU European Figure Skating Championships 2010 and the ISU Four Continents Figure Skating Championships 2010 is: **#23 Tango Romantica**. See ISU Communication 1567 for more information.

General requirements for Compulsory Dances (see Rule 608)

During the skating of the Compulsory Dances, the following must be observed:

- a) *Accuracy* - The steps, edges, elements/movements and dance holds must be in accordance with the dance description and the Regulations. Subject to general conformity with the basic requirements, some latitude is given to allow a couple to demonstrate their own individual style. This is usually accomplished by the use of a variety of arm and/or leg movements. Movements or positions of arms and/or hands, which differ from those specified in the descriptions of the required dance holds are permitted, provided that the leading hand of the man remains in the prescribed position for the hold.
- b) *Placement* - The pattern of the dances must be in accordance with the Regulations. Maximum utilization of the ice surface is desirable, which requires deep edges and good flow. Ice coverage must not be obtained by the use of flat or shallow edges. In a regulation-sized rink (Rule 342), the couples may not cross the long axis of the rink. In rinks less than regulation-size, the couple may cross the long axis proportionally to the width of the rink.
- c) *Skating Skills* - Good basic skating quality is required: Deep edges should be skated with speed, flow and easy glide in an effortless manner. Cleanness and sureness of steps, edges and lobe transitions should be evident. The skater must carry the weight over the skating foot. Footwork must be neat and precise. Two-footed skating must be avoided except where it is required. Good and equal technical ability are required for both partners. The knee of the skating leg should be flexible with a rhythmic rise and fall. On chasses and progressives the feet should be lifted a small distance from the ice.
- d) *Timing* - The dances must be skated in strict time to the music with the start of the first step of the dance on beat 1 of the 9th measure of the particular tune (unless otherwise specified). The prescribed number of beats employed for each step/movement must be in accordance with the Regulations. All movements must be coordinated with the rhythm of the music so that all steps are completed without any break in continuity.
- e) *Style* - Carriage should be upright but not stiff with the head held up. All actions should be easy and flowing and performed in an elegant manner. The dance holds (see Rule 605), should be firm and the fingers neither spread nor clenched. There should be no apparent struggle for speed and speed should not be obtained at the expense of good style. The free leg should be extended; the foot turned out and pointed down.
- f) *Unison* - The couple should skate as close together as possible keeping a constant distance between them. All movements such as leg swings, knee bends and lean should be equal and well coordinated and their performance should be balanced. The partners should move as one. The man should show his ability to lead and the lady to follow.
- g) *Interpretation* - The dance must be skated smoothly and rhythmically with the character of the music being correctly interpreted. Such interpretation shall be shown by variations in the execution of the dance movements, which reflect the rhythm patterns in the music.

Official ISU Sponsors

The overall effect should be such that each Compulsory Dance has a distinct flavor. The partners should relate to one another.

Required Sections of Compulsory Dances

For the purpose of marking and use of Video Replay the pattern of each Compulsory Dance is divided into a certain number of sections. The number of sections of the particular dance depends on its length (number of steps) and number of sequences in the dance. The required sections of each Compulsory Dance and their Values have been published in an ISU Communication.

ORIGINAL DANCE

The rhythm for 2009/10 is Folk Country Dance. The duration of the Original Dance is 2 minutes and 30 seconds (+/- 10 seconds).

General Requirements for the Original Dance (see Rule 609):

- a) The Original Dance is the skating by a couple of a dance of their own creation to dance music they have selected for the designated rhythms. The Original Dance must reflect the character prescribed of the dance rhythm(s) and be translated to the ice by demonstrating technical skill with steps and movements along with flow and the use of edges. The rhythm(s), the permissible range of tempo, the duration, and any changes shall be decided annually by the Ice Dance Technical Committee for the second following year and guidelines are published in an ISU Communication.
- b) The incorrect selection of music for the rhythm(s) chosen is severely penalized. Vocal music using lyrics is permitted. Only music with a rhythmic beat may be used and the couple must skate to the rhythmic beat and not to the melody alone. Minor variations within the permitted range in tempo are allowed. Two or three selections of music may be used. Each selection may have a different tempo but each must be within the range of tempo permitted. In years when multiple rhythms are designated, couples are required to list the rhythms chosen, and the order in which they will be skated, when registering their music for the information of the Referee and Judges of the event.
The musical introduction to the Original Dance may be without beat or melody for a maximum of 10 seconds.
- c) The duration of the Original Dance is designated annually by the Ice Dance Technical Committee. The time must be reckoned from the moment when one of the couple begins to move or to skate until arriving at a complete stop at the end of the program.
- d) Except during a required step sequence(s), the pattern of the dance must proceed in a generally constant direction (either clockwise or anti-clockwise) and must not cross the long axis of the ice surface except once at each end of the rink (within no more than 20 meters of the barrier). Loops in either direction are permitted provided that they do not cross the long axis.
- e) All steps, turns, rotations and changes of position are permitted provided that they are appropriate to the designated rhythm and the music chosen. Repetition of any steps is permitted. Difficult, original, varied and intricate footwork is required for both skaters.
A program that relies heavily on the use of chasses and progressives (runs), posing and one-directional skating is considered to be less difficult than one containing changes of edge, rockers, choctaws and other such steps and turns and multi-directional skating. Toe steps are not allowed. One skate of each partner must remain on the ice at all times. Excessive skating on two feet, by either partner or both, is considered as showing inability to skate or maintain balance. However, up to 1 highlight for which one or both partner(s) are on two feet may be included (maximum duration - 5 seconds). Kneeling or sliding on two knees on the ice and/or touching the ice with hand(s) are not permitted. A program

Official ISU Sponsors

- which is choreographed so that its performance extends to all sides of the arena is preferable to one directed to only one side (Judge's side).
- f) Partners must not separate except to change dance hold to perform the midline step sequence or the permitted stops. Any change of dance hold must not exceed the duration of one measure of music. The Separations at the beginning and/or end of the program may be up to 10 seconds in duration.
 - g) There are no restrictions on dance holds except hand-in-hand holds with fully extended arms, which are not permitted.
 - h) Up to two (2) full stops are permitted (duration must not exceed 5 seconds each unless otherwise specified). Any choreography appropriate to the music selection (including a separation of no more than 2 arms length apart) may be included. After the clock is started with the first movement, the couple must not remain in one place for more than 10 seconds.
 - i) The program must be developed through skating quality rather than through non-skating actions such as sliding on one knee, or use of toe steps which should be used only to reflect the character of the dance and underlining rhythm and nuances of the chosen music.

Required Elements

- **One Short Lift** – but no more than two lifts (only the first Lift will be identified and considered in determining the level of difficulty. The additional Lift will be considered by the judges in marking the Choreography).
- **Two Step Sequences including one Midline Not Touching Step Sequence (not incorporating the Sequential Twizzles) and one Step Sequence in hold (either Diagonal or Circular)**
- **One Set of Sequential Twizzles**

FREE DANCE

General Requirements for the Free Dance (see Rule 610)

- a) Free Dance is the skating by the couple of a creative program with dance steps and movements expressing the character of the music chosen by the couple.
The Free Dance must contain combinations of new or known dance steps and movements including Required Elements and step sequences composed into a program displaying good skating technique and the personal ideas of the couple in concept, arrangement, and expression. The choreography (including Required Elements) should clearly reflect the character, accents and nuances of the chosen music, demonstrates change of pace and variations in speed and tempo, and utilizes the whole ice surface. The Free Dance must not have the concept of a Pair Free Skating program or an Exhibition dance.
- b) The duration of the Junior Free Dance must be 3 minutes and the duration of the Senior Free Dance - 4 minutes. The couple is allowed to finish their program within ten seconds plus or minus the required time. The time must be reckoned from the moment when one of the couple begins to move or skate until arriving at a complete stop at the end of the program.
- c) The music for the Free Dance may be vocal and must have an audible rhythmic beat and melody, or audible rhythmic beat alone, but not melody alone. The couples should skate primarily in time to the rhythmic beat and not to the melody alone. A program that displays a change of tempo and a well balanced use of melody, rhythmic beat and musical accents

Official ISU Sponsors

and not melody alone is considered to be of a higher quality because it shows a greater variety of dancing skills and reflects the concept of Ice Dance as a competitive sport. Skating out of time or out of phase with the music must be penalized. Couples are required to submit the name of the selected music or the title or theme of their program when registering their music for the information of the Referee and Judges.

- d) All steps and turns are permitted. Deep edges and intricate footwork displaying skating skill, difficulty, variety and originality must be included and performed by both partners. A program that relies heavily on the use of cross cuts, simple stroking and running, one directional skating, excessive stopping and posing is considered to have insufficient required difficulty, intricacy and variety of linking dance footwork (e.g. threes, mohawks, choctaws, rockers, counters, brackets, twizzles etc.). A program which is choreographed so that its performance extends to all sides of the arena is preferable to one directed to only one side (Judges side).
- e) Free skating elements and movements are permitted provided they are appropriate to the character of the music and to the concept of a Well Balanced Program. Lifts, jumps, dance jumps, hops, dance spins, pirouettes and other dance movements must be in accordance with the definitions in Rule 604.
- f) Pair skating elements as defined in Rule 513 (excluding spirals, spins and step sequences) are not allowed.
- g) The number of separations to execute intricate footwork is not restricted. The distance between partners should not exceed two arms lengths. The duration of each must be up to 5 seconds. The separations at the beginning and/or end of the Free Dance may be up to 10 seconds in duration without restrictions on the distance of separation.
- h) All changes of hold are permitted. Many and varied dance holds increase the difficulty of the program and therefore, should be included. Skating face to face is considered to be more difficult than skating side by side, hand in hand, separately or one after the other.
- i) Full stops (up to 5 seconds), in which the couple remains stationary on the ice while performing body movements, twisting, posing and the like are permitted;
- j) The program must be developed through skating quality rather than through non-skating actions such as excessive repetition of sliding on one knee, or use of toe steps which should be used only to reflect the character of the dance and underlining rhythm and nuances of the chosen music. Touching the ice with hand(s) is/are not permitted.

For a Well Balanced Senior Program, the following Required Elements have to be included:

- **Three Different Types of Lifts***, (as described in Rule 604) selected from the following list (one may be chosen from the Long Lifts):

Short Lifts (Lifts not to exceed 6 seconds in duration):

- a) Stationary Lift
- b) Straight line Lift
- c) Curve Lift
- d) Rotational Lift

Long Lifts: (Lifts not to exceed 12 seconds in duration)

- e) Serpentine Lift
- f) Reverse Rotational Lift
- g) Combination Lift

*Up to two additional Lifts up to 6 seconds without any requirements for the Level are permitted (provided that it is not illegal), but only the first three performed Lifts will be identified and considered in determining the level of difficulty. This additional Lift will be considered by the judges in marking the Choreography. However, if a sixth lift is performed, it will be considered by the Technical Panel as an Extra Element.

Official ISU Sponsors

- **One Dance Spin (chosen from Spin or Combination Spin)**
- **Two Different Types of Step Sequences**

ONE selected from group A) and ONE selected from group B):

Group A) Straight Line Step Sequences:

- a) Midline: skated along the full length of the center (long) axis of the ice surface.
- b) Diagonal: skated as fully corner to corner as possible.

AND

Group B) Curved Step Sequence (anticlockwise or clockwise):

- c) Circular: utilizing the full width of the ice surface on the short axis of the rink
- d) Serpentine: commences in either direction at the center (long) axis at one end of the rink and progresses in three bold curves or in two bold curves (S-Shaped) and ends at the center (long) axis of the opposite end of the rink; pattern utilizing the full width of the ice surface.

Either Step Sequence must be skated in dance holds or variations thereof

- **One set of Synchronized Twizzles**

* Further instructions and descriptions are published with the required elements for the Senior Free Dance (see ISU Communication No. 1567).

Van der Perren became the first male skater from Belgium to medal at the European Championships in 50 years when he earned the bronze in 2007. Fernand Leemans had taken the bronze at the 1947 European Championships. Van der Perren was also the first Belgian skater ever to medal at Junior World Championships (silver in 2002). Van der Perren has landed triple-triple-triple combinations in competition. Van der Perren started to skate as a ten-year-old after watching an ice show. At that time, it was his dream to star in the show. Van der Perren underwent hip surgery in April 2008. He got married to single skater Jenna McCorkell (GBR) on May 17, 2008. He switched coaches in fall 2009.

Brezina started skating after the 1998 Olympic Games, because he wanted to play ice hockey. His father told him that he needs to learn how to skate first, Brezina took lessons and stayed in figure skating. Skaters he looks up to are Jozef Sabovcik and Jeffrey Buttle.

Joubert is the first Frenchman to become World Champion in 42 years since Alain Calmat was World Champion in 1965. He also was the first French man to win the European title in 40 years when he took the gold in 2004. He started to skate at age four because his two elder sisters skated. Originally, he wanted to play ice hockey, but his mother signed him up for figure skating lessons. Joubert immediately liked the jumping. He won the bronze medal in his debut at the 2002 European Championships and has medalled in each European Championships since. First European skater to land three quads in one program (2006 Cup of Russia). Joubert withdrew from the Grand Prix Final due to a back injury in December 2008 and missed French Nationals. He switched coaches after the 2009 World Championships and went back to former coach Laurent Depouilly.

Lindemann is the first German man to medal at Worlds (bronze in 2004) since Norbert Schramm took the silver in 1983. He is also the first male skater from Germany to win Junior Worlds (in 2000). Lindemann started to skate when he was four years old. He wanted to switch to ice hockey when he was 12 years old, but his mother stopped him. His skating idol was three time World Champion Elvis Stojko (CAN). Lindemann also admires speed skater Gunda Niemann-Stirnemann for her competitive spirit. Lindemann missed the past three seasons almost completely due to illness and injuries but celebrated a comeback by winning his seventh National title in Dec 2009.

Contesti is the first Italian man to medal at European Championships in 55 years when he took the silver in 2009. Carlo Fassi had won the gold in 1954. Contesti competed for France until 2006. He then moved to Italy and meanwhile received Italian citizenship. He is coached by his wife Geraldine Zulini. They got married in February 2007. Their son Ennio was born in June 2009. Contesti started skating because his two elder sisters were skating. His father Yves was a professional soccer player in the French premier league.

Plushenko retired from competition after winning his Olympic title in February 2006 and now decided to come back. He was sent to the ice rink by his mother at age four. His mother liked figure skating and had some friends at the rink. When Plushenko was 11 years old, his ice rink in Volgograd closed, and the boy moved alone to St. Petersburg to train there. His parents followed later. Plushenko is the first skater to perform a quadruple toeloop-triple toeloop-triple loop combination in competition (Cup of Russia 2002). Plushenko's Free Skating music has been especially arranged for him by violinist Edvin Marton. Plushenko got married to Jana Rudkovskaia in September 2009.

Voronov started to skate when friends of his parents signed him up for figure skating classes, and he liked the sport immediately. His parents wanted him to stop when he broke his collarbone in a skating accident two years later, but he insisted on continuing. Voronov moved to St. Petersburg in 2000 after coach Rafael Arutunian left Russia. Coach Alexei Urmanov is the 1994 Olympic Champion.

Pöykiö is the first Finnish Lady ever to medal at an ISU Championship (bronze medal at the 2001 World Juniors) and won the first medal for a Finnish Lady at the 2005 European Championships (silver). Pöykiö started to skate because her elder sister Heidi skated. Pöykiö changed coaches after the 2005/06 season and is now coached by her sister.

Gedevanishvili is the first skater from Georgia to medal at and to win a Junior Grand Prix of Figure Skating event (in 2005). She left Moscow where she had trained for years in fall 2006, because her mother had visa problems and went back to Georgia. She relocated to the USA for training in December 2006. She received the Order of Honor by Georgian President Mikhail Saakashvili for her achievements as an athlete. Gedevanishvili's brother Dmitri (three years younger) is a competitive alpine skier. Gedevanishvili switched coaches following the 2009 European Championships.

Sebestyen won the first European Ladies title for Hungary in history (in 2004). Sebestyen started skating at age 4 on an open-air ice rink in Tiszaujvaros. She continued to train there until the age of 13 when she moved to Budapest after competing in the World Junior Championships. Sebestyen has competed at European Championships since 1995 and at World Championships since 1998.

Peters is the first skater to represent Ireland at an ISU Championship (2009 European Championships). She moved to the USA for better practice conditions in 2006. Peters was born in Germany as her parents were working there, and moved back to Ireland when she was 18 months old. She also lists Barbara Roles Williams and Jeff DiGregorio as her coaches.

Kostner won the first European Ladies title for Italy in history (in 2007). She is the first Italian lady to medal at World Championships (bronze in 2005) since Susanna Driano took the bronze medal at the 1978 World Championships. Kostner is also the first Italian single skater to win a medal at Junior Worlds (bronze in 2003). She is a cousin and godchild of famous Italian skier Isolde Kostner and says she feels inspired by her. Kostner's mother Patrizia was a nationally ranked figure skater in the 1970s and her father Erwin played ice hockey on the National Italian team at World Championships and Olympic Games. Kostner has two brothers, Martin (one year older) and Simon (three years younger). Simon plays ice hockey competitively. Kostner switched coaches in spring 2009 and moved to the USA.

Makarova is coached by her parents Larisa Selezneva and Oleg Makarov, who were successful pair skaters, competing for the Soviet Union. They were European Champions in 1987 and 1989 and took the bronze medal at the 1988 World Championships and the 1984 Olympic Winter Games. Makarova moved to the USA at the age of 8 as her parents started coaching there. Skaters she looks up to are Johnny Weir (USA) and two-time World Champion Irina Slutskaya (RUS).

Meier is the first Lady from Switzerland to medal at Europeans in 26 years when she took the silver in 2007. Denise Biellmann was European Champion in 1981. Meier hails from a skating family. Her mother and sister both skate in a synchronized team, and her mother is also the president of the local skating club. Her sister is a two-time Swiss Champion and World competitor with the "Starlight Team". Meier is coached by her aunt Eva Fehr. Her father, uncle and two cousins play ice hockey. Her father is the president of the local hockey club. Meier missed most of the 2008/09 season due to injury (herniated disc). She withdrew from the Grand Prix events in 2009 due to an achilles tendon inflammation.

Karademir is the first Turkish figure skater in history to compete at the Olympic Winter Games (in 2006). Her 10th place finish at the 2007 European Championships is the best placement of a Turkish figure skater in an ISU Championship so far. Karademir started to skate at age 5 as a part of her kindergarten activities when the first ice rink opened in Ankara. She moved with her parents to Canada when she was 12 years old for better practice conditions. Skaters she looks up to are Katarina Witt (GER), Kurt Browning (CAN), Steven Cousins (GBR) and Jamie Sale/David Pelletier (CAN).

(1): Cyriane FELDEN / Maximin COIA (FRA)

Canac has competed in singles until the 2005/2006 season. She started practising pairs with Coia for one hour a day in 2005. Since July 2006, Canac has switched to pairs completely. The couple missed the 2008 European Championships because she suffered from a stress fracture in her sternum. Canac/Coia have moved to Canada for training in 2008.

Savchenko/Szolkowy are the first German skaters to win an European title in 12 years when they took the gold in 2007 and the first Germans to win Worlds in 11 years (in 2008). Their coach Ingo Steuer won Europeans with partner Mandy Wötzel in 1995 and Worlds in 1997. Savchenko is the 2000 World Junior Pairs Champion (with Stanislav Morozov), competing for the Ukraine. After her partnership with Morozov dissolved in 2002, she eventually moved to Germany in 2003 to team up with Szolkowy. Savchenko/Szolkowy won the 2004 German Nationals after skating together for just a few months. Savchenko obtained German citizenship in January 2006.

(1): Brooke PAULIN / Robert PAXTON (CAN), (2): Taylor STEEL / Robert PAXTON (CAN) , (3): Brittany HEATH / Robert PAXTON (CAN)
Risseuw/Paxton teamed up in July 2008. She was a single skater until then. Paxton moved to Canada when he was 16 years old to pursue his skating career. Risseuw started skating because her elder sister skated. Paxton started skating because his mother wanted to learn how to skate and took him along. Risseuw/Paxton admire Olympic Pairs Champions Jamie Sale/David Pelletier (CAN), and Ekaterina Gordeeva/Sergei Grinkov (RUS).

(1): Yuko KAWAGUCHI / Alexander MARKUNTSOV (JPN), (2): Ekaterina VASILIEVA / Alexander SMIRNOV (RUS) , (3): Yuko KAWAGUCHI / Devin PATRICK (USA)

Kavaguti and Smirnov teamed up in spring 2006. They missed Russian Nationals and the 2007 European Championships after she broke her ankle in a fall in practice in December. Kavaguti competed internationally in singles for Japan before switching to pair skating. With former partner Alexander Markuntsov, she became the first pair skater from Japan to medal at an ISU Championship (silver at 2001 Junior Worlds). After her partnership with Markuntsov dissolved in 2003, she has been skating with different partners and competed with Devin Patrick at the U.S. Championships. Kavaguti has been living and training in Russia since 2003 and received Russian citizenship in February 2009. Her name spelling was changed from Kawaguchi to Kavaguti. The couple has landed the quadruple throw Salchow in competition. Kavaguti graduated from St. Petersburg University in 2007 with a degree in International Relations.

(1): Maria MUKHORTOVA / Pavel LEBEDEV (RUS)

Mukhortova/Trankov teamed up in 2003. Trankov moved from Perm to St. Petersburg at age 15 in order to find a new partner. Mukhortova started skating in Lipetsk but moved back to St. Petersburg to start pair skating. The couple switched coaches after the 2005/06 season, going from Nikolai Velikov first to Tamara Moskvina, in August 2006 to Artur Dmitriev and eventually to Oleg Vasiliev in December 2006. Vasiliev is the 1984 Olympic Pair skating champion (with Elena Valova).

(1): Tatiana VOLOSOZHAR / Petr KHARCHENKO (UKR)

Volosozhar/Morozov teamed up in 2004. Morozov is the 2000 World Junior Paris Champion (with Aliona Savchenko). He retired from skating in 2002 after battling recurring injuries but came back to compete with Volosozhar. He was born in Russia but moved to the Ukraine as an infant as his father was working as a skating coach there. The couple switched coaches and moved to Germany in June 2008 to be coached by 1997 World Champion Steuer.

(1): Grethe GRÜNBERG / Kristjan RAND (EST), (2): Caitlin MALLORY / Brent HOLDBURG (USA)

Mallory and Rand teamed up in summer 2008. Rand is the 2007 World Junior silver medallist with Grethe Grünberg. The couple won Estonia's first figure skating medal at an ISU Championship. Rand relocated to the USA to search for a new partner after Grünberg retired from competitive skating. Rand's younger brother Taavi is a competitive ice dancer as well and competes at the international level. Rand was coached by his mother Lea before moving to the USA.

(1): Christina BEIER / Tim GIESEN (GER)

Christina and William Beier are brother and sister. Their mother is from the Philippines, their father is German. They moved to Germany when they were 6 and 7 years old respectively. They had relatives who worked at the ice rink in Chemnitz and started to skate just for fun. They left home for training when they were 12 and 13 years old. Beier/Beier missed the whole season 2006/2007 as Christina was suffering from an inflammation in her foot. They split up in spring 2008 and teamed up again in April 2009. Christina Beier competed with Tim Giesen for one season, while William Beier skated with Stefanie Froberg.

Kerr/Kerr are brother and sister. They teamed up in 2000. They are the first skaters from Great Britain to medal at an ISU Championship in 15 years when they took the bronze at the 2009 European Championships. Both have been taking jobs as actors and models to finance their skating. John Kerr was a double for the footballer Ally McCoist in a movie and appeared in various TV series. Sinead Kerr has worked as a part-time model for designer Alexander McQueen. Kerr/Kerr moved to the USA for training in 2006. Coach Evgeni Platov is a two-time Olympic Ice Dance Champion (1994 and 1998 with Oksana Grishuk).

(1): Morgan MATTHEWS / Maxim ZAVOZIN (USA), (2): Nora HOFFMANN / Attila ELEK (HUN)

Hoffmann/Zavozin teamed up in September 2007. Both competed successfully at the international level with their previous partners. Hoffmann is the 2003 & 2004 World Junior silver medallist with Attila Elek. Zavozin is the 2005 World Junior Champion with Morgan Matthews, competing for the USA. Zavozin is the son of Russian ice dancers Elena Garanina and Igor Zavozin who competed at the international level. The family moved to the USA. Zavozin started to skate as a four-year-old, but stopped at age 7. Instead, he took ballroom dance classes for four years. He took up skating again at age 13. His mother is part of their coaching team. Hoffmann suffered severe head injuries in a fall in practice in spring 2009 and the couple missed the World Championships.

Zaretski/Zaretski are brother and sister and were originally coached by their parents. They were born in Minsk (BLR) but moved to Israel at ages three and seven. He started skating at age four in Minsk while she began at age six in Israel. The siblings teamed up in 1995. They switched coaches after the 2006/07 season and are now coached by Galit Chait, the 2002 World bronze medalist (with Sergei Sakhnovski).

Faiella/Scali teamed up in 2001 after competing successfully at the junior level with their previous partners. Faiella/Scali moved to Detroit (USA) to train with Camerlengo in 2006. They are also coached by Linichuk since 2009. Linichuk is the 1980 Olympic Ice Dance Champion (with Gennadi Karpanossov). Camerlengo was a National Ice Dance Champion of Italy and competed at the World level.

Domnina/Shabalin teamed up in spring 2002. Before, both had competed successfully at the international junior level with different partners. Domnina started to skate at the age of six and went into dance two years later. She left her home town of Kirov at 15 in order to train under Gorshkov. Shabalin left his home town of Samara at the age of 15 as well to train in Bulgaria and then returned to Russia. Shabalin underwent meniscus surgery on the right knee in May 2007, appendix surgery in September 2007 and two other meniscus surgeries on the left knee in December 2007 and March 2008. The couple missed the 2008 World Championships due to his ongoing knee problems. Domnina/Shabalin switched coaches in June 2008 and moved to the USA to train under Linitchuk and Karpanossov, the 1980 Olympic Champions. They withdrew from the 2009 European Championships as he hurt his knee again during the Compulsory Dance. They missed the 09/10 ISU Grand Prix series due to his knee problems.

Khokhlova/Novitski teamed up in October 2001. Novitski switched to ice dance at age 13 because he only landed double jumps. Khokhlova skated in a Moscow childrens' ice ballet until she was 13 years old. She then wanted to go into pair skating and started practicing jumps. However, a coach suggested she should try ice dance instead.
